

Boston, March 20, '75

My dear Sir,

I am glad to learn that your Fair promises to be a brilliant success. Having had a long practical experience of the benefits to be derived from your Association, and knowing it to be very prominent indeed among the best institutions of the city, I trust the liberal merchants of Boston will never forget its claims on their bounty. A Boston without the M.S.A. would be a Boston that none of us old people could recognize. Very sincerely yours,
C. S. Whipple
