

an auxiliary branch with
me. The only part of
Norway at all fit with
the zoologist's point is the far
north - from the Lofoden Isles
to the Russian frontier. I was
directed to these localities by
Boie the German naturalist who
spent three years there & told me
exactly where to find each bird.
You shall take out everything with
you & be prepared to sleep out, & to live
on your gun & rod.

I think when I receive
a box I will send some
from N. America & from
Swal mountains I shall
also duplicate by another sale.

I am Sir
Yrs. very obedt^t
A. N. Tristram

Caith Edin
11 May 1857.

Sir I am happy to be able
to reply to your questions
about the eggs in the sale
catalogue.
Lots 55. & 56 were taken
by myself in Canada in May 1849.
Lot 64 taken by myself also
same time & place, is within

My Barrington Instream 1861 -

Head of Lovette School

Wishes

a few miles & days of 63.

96 & 104 I did not take myself, but am quite

certain of their genuine-

ness. ^{Lot 96} They are ^{from the lake of Stirling} ^{Lot 104 from Stirling} lakes in Jutland, I have

still 20 Turnstones in my collection, & they are an egg which cannot be mistaken.

Lot 106, two specimens of me from the Danube. I cannot give the pedigree, but they are

SC

TR

a cheap & common egg in the East.

Lots 135 - 148 were mostly taken by me in Lapland & Fennoscandia. But not all, some being procured from Dr. Thunemann's collection from whom I had several others.

But I can warrant all the lots, as I have so many (from 20 to 30 of each) that I cannot be mistaken in the character of the egg.

My own traps have been used for the purpose of birds than eggs. The latter being only

TRISTRAM, Rev. Henry Baker, LL.D.,
D.D., F.R.S. 1868 ; Canon of Durham since 1873 ;
b. Eglington, Northumberland, 11 May 1822 ;
