Dear Margaret and Hugh:

You will think I am going to
was very welcome out as I am still
at Zed's. It did not have any bad
effect on me being out in the
storm. I haven't had any cold only
felt sore for a few days.

Zed thinks he had quite a joke
on me when he went to Copeland
on Monday after we were in the
storm I sent for a bottle of Sali-
pica and some cold tablets haven't
had to take any such thing yet
I told him they were nothing
like being prepared.

Zed and Jennie went to Garden C.
last Saturday after their little
Chicks got 400. They wanted me to
go but as it was misting some
when they started I did not want
to take any chance on being out

a gain. They left home 2 P.M. got back at 6 P.M. it was sleeting by the time they started home they bot some long candles and Jennie held one lighted a gain of the wind shield all the way home so Jed could see the road.

The snow blew and drifted all night and was a great deal colder than last week. It has warmed up to day so we dont need much fire. Their house is kept warm all over have three beds in the basement it is warm to dress all the time. We have so much to eat I ought to get fat. they go lots and have lots of ~~coffee~~ company. I think I will go home next if the roads dont get bad. Marjorie will take me Jennie dont seem to want to go back to Luren since her mother is gone. Jed and Jennie both said they wish you would write them once and while will close with love mother.

Saturday

Dear Margaret & Hugh:

The first thing I will explain about not sending any Christmas greetings. Gladys and I talked it over and were going to send you percale sheets. The roads got so bad they did not get to go to Hutchinson and I thought of what you said about changing to double beds when ever you could. Now if you will tell me what size you want we will be glad to send them. You know Gladys would rather tie up Xmas packages than eat. And if they ever were a missest she hasn't been busy I don't know when it was. Lawson worked several days at the locker for Boyd he got

Six dollars per day and she does
so many things out doors she had
a man come and cull her chickens
I guess he did a good job for she
gets ~~more~~ eggs every day I think
she sold about 50 hens she has
over a 100 left.

I am certainly sorry about you
having a cold so much why don't
you take vitamins Ed thinks
they have kept him from taking
cold he is all mott down with
his stomach Emma is better
but not entirely over the stroke,
I got over my cough but was so
short of breath so Dr. checked me
over I have ^{high} blood press as well
as my heart is acting up. Now
he dident halt to tell me that
for I already knew it when you
were here I could hardly talk of
a morning but you find so much
fault with me - the way I do things

I
of course I know I ~~know~~ don't
keep house like a maid that
is paid \$75. per month I
send the laundry away but do the
rest it profly is a poor do Jim & Lily
would come up and stay with me
at night if I need them. I think
I am better for as my shortness
of breath is concerned I sleep well
and have a good appetite I don't
get up until about 9 o'clock I fix
breakfast - soon as I can for I am
so weak till after I eat.
Mrs. Forney is almost down
she says she is afraid to stay
in bed for one day for fear
she would not get up.
Mrs. Parsons is still down perfectly
helpless she pays Iris \$25 per week
and boards Mary Anna. Help is out
of the question these war brides

set a round and lives of the
Government won't turn a hand
it is getting desperate at the hospitals
for the nurses are leaving by
the hundreds.

What does Hugh think of the
way they are fighting one another
in Washington. We thought after
Mr. Jefferson was appointed to look
after the rubber situation
every body would be going on
high again.

I think by the time we
raise the \$100,000,000,000 + 16,000,000,000
we will all join the nuclear
Colony. I promise to post
drop a card in a few days or by
the time you get this read.

Thanks for the check. Now I hope
you're feeling better. Does the Dot go
live close to you. With love

Dear Mr. and Mrs. Peal,

about a week and a half ago we received a letter from Sloan's saying that Mr. and Mrs. Peal had sent us a pair but one had been damaged in shipment and so the pair would be delayed. We were quite intrigued as they did not say what it

In fact someone else gave us a gift certificate at Sloanes so last night we went down and bought fireplace tools which continue to carry out the theme or style of yours so that now the fireplace is one of the most elegant aspects of the living room. We both thank you very very much. We couldn't be more pleased and are extremely proud to have them as a part of our household.

was a pair of and we were hoping against hope that it would be and iron ^{and} that is one of the things we really need and want. John also especially wanted brass so you can imagine how excited we were as we unpacked your magnificent shiny andirons. We immediately set them up in the fireplace and they look positively resplendent. We both are just delighted with them and love the small gloves at the top and the squatly legs and feet.

- Drive to Hotel Usher, Merck on the Steenhusen -
 but not via Vidarwater and Rindvannstunet!

Hotel Alexandra, Aker - July 29, 1956.
 This is familiar ground, though - but the first place where I have crossed our path of the golden summer of 1923. Oden is just around the corner, and there I made a stop to YRIS Hotel, looking the same or when we made those terrific assaults on their self-service (fortunately) smorgasbords. The hotels here still follow that custom for breakfast and sometimes for other meals - still serving fish (including cold and pickled herring), cheeses, tomatoes, cold ham, etc. This morning I found they had added for breakfast since the day chocolate pudding with huge portions of cold cream! But we are having a wonderful time. On to Hotel Spina Rindvann, Oden about 1000 yds. all the way to spa bath from the main road.

 Dear Margaret & Hugh - Just 34 years ago
 tomorrow you and I were married and
 started for this lovely place. How much
 you both have done for us & for Joan
 and Cleo in the ensuing 34 years! Thank
 you eternally for your
 love & care. Your 32nd anniversary will be
 coming up in about a month. Special!
 Wynne, like Dale, loves this
 place very much. Indeed it's just
 about our favorite spot anywhere.
 I do hope you can visit it sometime.
 I trust your neck is better now.
 Love all is well with you, our affectionate
 regards to you both - MARCOLOM

Wednesday night,

Dear Margaret and Hugh. I hope you had a wonderful trip and that it didn't tire you too much. I have found that vacations may relieve the monotony of ever day life but one generally has to rest a while after one before he can resume his routine with renewed vigor.

I am back in the hospital again. Apparently arthritis has spread to about all of my joints untill it seemed to be just one big ache. They have found it in my blood but haven't said just what kind it is I should know tomorrow so will finish this when I find out. I hope to go home by the last of the week. I have just about had my fill of hospitals Sunday night. They finally decide it is osteo-arthritis. I am going to try whirlpool baths for a few days. If that works I will get me for home. If it don't

I will go back to aspirin. They may not work but are as good as anything else I have tried and are a lot cheaper.

Gladys and Peggy were here this afternoon.

Fleet helped as time passes pretty slowly here.

Milton is not doing very well in school. He don't seem to mature as he should. All he wants to do is play and he seems to enjoy playing as much with a 3 year old as he does with boys his own age. He has been given shots to help him mature physically but I can't see that they have helped.

Lawson
