MINUTES OF THE UNIVERSITY FACULTY APRIL 8, 1946

The University Faculty met in the Assembly Room of Lafferty Hall Monday, April 8, at 4:00 p.m. President Donovan presided. Members absent were C. B. Gardner, James H. Graham, L. J. Horlacher, T. T. Jones, O. T. Koppius, L. E. Nollau, R. E. Shaver, B. A. Shively, and Amry Vandenbosch.

The minutes of March 11 were read and, after a minor amendment, were approved.

A. J. Lawrence, Chairman of the Rules Committee, presented the following recommendations from the committee, which were approved:

The committee took action on two matters that had been referred to it by the University Faculty, (1) the constitution of the Veterans' Club, and (2) the matter of granting credit to students who held commissions in the armed services.

Two representatives of the Veterans' Club met with the Committee to explain provisions of the proposed constitution. They were Howard Bowles, President, and William Rogers. Dean william S. Taylor met with the committee for a few minutes while the matter of advanced military credit was under discussion.

The committee made some changes in phraseology of the Veterans Club constitution and by-laws, with the approval of representatives of the Club. The committee voted unanimously to recommend approval

of the constitution as revised. A copy of the revision is at-

The committee requested Dean Chamberlain to review the problem of military credit and discuss the various arguments for and against granting the credit. The committee voted unanimously to recommend that no credit be granted to students who held commissions in the armed services on the basis of such commissions for the following reasons:

- 1. The American Council on Education early in the war prepared manuals in which were listed courses and training programs for which it recommended that credit be granted.
- 2. If credit were granted to an officer in the Infantry for which the University advanced courses prepared, it would seem logical that credit also be given to officers in other branches of the service.
- 3. The University is now granting credit for basic military courses and for physical education for qualified veterans regardless of rank.
- 4. Educational institutions have tried to avoid blanket credit for military training. This would appear to be a departure fromthat principle.

Dean Chamberlain presented a report on the enrollment for the Spring Quarter, including a tabulated report by colleges, and some statistics concerning the veterans enrolled. He stated also that a poll of the students indicated that the University might have 3,000 students in the first term of the summer quarter and 2,500 in the second term.

President Donovan expressed the opinion that the summer enrollment might be 3,200, or even 3,500 in the first term. He stated further that it might be necessary to limit the enrollment in the Fall Quarter to 5,000 students and that plans for the schedule should include afternoon and evening classes.

Dean Boyd presented for the College of Arts and Sciences the following new courses and changes in courses. These were approved by the Faculty.

President Donovan reviewed briefly the procedure through which the present University Faculty was organized. He stated that he had heard some criticism that the group was too small and that it was not a democratic organization. He indicated that if it seemed desirable, he would recommend to the Board of Trustees that the number be increased.

The President further informed the Faculty that he had obtained approval from the Board of Trustees of his recommendation that the present "Change of Work" plan be amended so that any teacher or administrative officer who reaches the age of 65 may, on request of the President or the head of his department, have a change of work under the terms made in 1928.

President Donovan reviewed briefly his recommendations to the Legislature concerning the University's budget for the next biennium. He indicated that the increased appropriation for the University would be used largely to increase salaries. He indicated also that it would be necessary to increase the number on the staff in proportion to increases in enrollment. He also expressed the belief that some younger staff members should be brought in and that they should be instructors rather than assistant or associate professors. He stated that there seemed to be a wide variance in the employment of graduate assistants and that a letter was to be sent to each dean, setting forth the approved policy, He expressed the belief that the University now stands in the best position in its history, and that no university south of the Ohio River, with one exception will have a more adequate income.

The Faculty discussed at some length the present housing situation and the difficulties faced by new faculty members in obtaining liwing quarters.
