

Danville Ky
Monday Sept. 19, 98.

My dear General,

Have not written
about bicycle heretofore,
I guess you had better send
mine down here. The roads
around are all good pipes, the
country tolerably level so
that I shall probably do
some riding. If however
you should find a chance
to sell my wheel for
\$10, I should rather
have the money for
a new wheel. Am

now settled in room and
boarding place - Room eating
place and college are all
some distance apart so
that I should like wheel
for getting around the
town. Please take off
cyclometer, & bill before
shipping wheel.

Have to give four lectures
this morning so have
no time for letter writing.
Have not heard from
any of you yet.

Boxes are here O.K.
with love to all
