

Minutes of the University Faculty, June 1, 1954

Dr. Hargreaves presented two motions for the Committee on Minimum Standards concerning the effective date of the new regulations governing marking, probation and graduation. Both motions were approved with an amendment as follows:

1. The new regulations affecting the quality point system and probation procedures be made effective for all students at the beginning of the fall semester of the 1954-55 academic year. Any person presently under scholastic penalty shall have his case adjudged under the old regulations.
2. The new regulations concerning graduation requirements shall become effective for all students entering the University at the beginning of the fall semester of the 1954-55 academic year or at any time thereafter.
3. In order that the University's responsibility to give publicity to this change may be carried out, the Faculty instructs and requests the Registrar to insert an addendum detailing the changes in rules with each Bulletin of general information which is issued.

Dr. Chamberlain announced that Associate Dean Horlacher had returned from leave of absence and the Faculty welcomed him back to the campus.

The Faculty adjourned.

Dr. Alex Romanowitz read the following Resolutions on the death of Professor Ernest Adolphe Bureau.

Professor Emeritus Ernest Adolphe Bureau, former head of the Department of Electrical Engineering, University of Kentucky, died on July 13, 1954. He served the university in that department from September 1918 until July 1952 when he requested change of work status at the age of 66 years.

Professor Bureau was born in La Chapelle aux Naux, France, on July 11, 1886. His family came to the United States when he was four years of age.

He received the Bachelor of Philosophy degree from Ottawa University, Ottawa, Kansas and, later, from Purdue

Minutes of the University Faculty, August 11, 1954

University he received the degrees Bachelor of Science in Electrical Engineering and Electrical Engineer. He did advanced graduate work in electrical engineering at California Institute of Technology.

Professor Bureau was made Head of the Department of Electrical Engineering in 1942. It prospered and expanded under his leadership. He made significant contributions to its growth in the late nineteen-hundred thirties when the BS in EE degree was first authorized, and also during the war years when the Army Specialists Training Program was in progress. Following those years he directed his energies toward strengthening the graduate course programs of the department.

Professor Bureau had always been regarded as an excellent teacher by his students and his close academic associates. His wholesome influence upon both students and faculty has been continuously evident. His friendliness and genuine desire to be helpful to others endeared him to those who knew him well and brought spontaneous favor from those of lesser acquaintance.

Many campus activities benefited substantially through Professor Bureau's active interest. Some of these are: The Athletic Council, Cosmopolitan Club, YMCA, Faculty Representative Group of the Student Government Association, Student Branches of the Electrical Engineering Societies, Phi Sigma Kappa social fraternity.

In grateful memory of Ernest Adolphe Bureau's long and unselfish service to the University of Kentucky and its College of Engineering, as well as to the community and state in which he lived, the University Faculty, of which he was a most valuable member, resolves that this resolution be spread upon its minutes and that a copy be sent to the bereaved family.

H. Alex Romanowitz, Chairman
Resolutions Committee

The Faculty approved a motion to include the Resolutions in the minutes and to send a copy to members of Professor Bureau's family.

Dean White presented recommendations from the College of Arts and Sciences concerning new and dropped courses and changes in courses.
