

Minutes of the Meeting of the Board of Trustees of the University of Kentucky, May 28, 1956.

The Board of Trustees of the University of Kentucky met in the President's Office at 2:00 p. m. , Monday, May 28, 1956, with the following members present: Governor A. B. Chandler, Chairman; Robert R. Martin, J. Stephen Watkins, Mrs. Paul G. Blazer, Dr. Daniel C. Elkin, R. P. Hobson, Wood Hannah, Sr. , Robert C. Stiliz, Harper Gatton, Dr. Harry Denham, Ben Butler and Dr. Ralph J. Angelucci. Absent: Carl Dempewolfe, W. F. Foster and Louis Cox. President H. L. Donovan and Secretary Frank D. Peterson met with the Board.

A. Called Meeting

Section 164.170, Kentucky Revised Statutes, provides that "The Board of Trustees of the University shall meet on Tuesday preceding the regular annual commencement of the University...." The 1956 regular commencement was held on May 28. Normally the regular commencement is in June. The Executive Committee held its regular monthly meeting May 18, 1956, in accordance with the Statutes. The Board might have met on May 22. Since the meeting was not held on the Tuesday preceding commencement, the Chairman of the Board of Trustees issued call for a special meeting, which call was sent to all members of the Board of Trustees ten days prior to May 28.

B. Minutes Approved as Published.

On motion duly made, seconded and carried, the minutes of the Board of Trustees of April 3, and the minutes of the Executive Committee of May 18, 1956, were approved as published.

C. President's Address Printed.

Various members of the Board attended the Commencement exercises. They were greatly impressed by the Commencement address of President Donovan, and upon motion duly made, seconded and carried, the address was ordered printed and sent to alumni and a selected list of business men of the State. President Donovan was commended for the splendid address given to the graduating class.

D. Travel Allowance Approved.

President Donovan read the following letter from Dean Welch:

May 23, 1956

President H. L. Donovan  
University of Kentucky

Dear President Donovan:

We have not changed the per diem allowance for our Agricultural Extension workers who travel on official business for a number of years. Living costs - hotel and food - as you know have been increasing rather steadily.

The time has come when I think we should make some adjustment in order to relieve real hardship on the part of our staff people who have to be on the road much of the time. The Extension Division of the U. S. Department of Agriculture has increased its allowance to \$11.00 per day, which is indicative of the fact that public agencies have been recognizing the increased cost of living while on the road.

I am therefore recommending that the per diem for travel in the state be increased from \$6.50 to \$7.50 per day, except when it is necessary for personnel to remain in Louisville more than two days, in which case I should like for the per diem allowance to be \$9.00. I am also requesting that the per diem for out-of-state travel be increased from \$7.50 to \$9.00 per day.

I would hope that we will be permitted to make these adjustments June 1.

If there is further information you need, please let me know.

Sincerely yours,

(Signed) Frank J. Welch  
Dean and Director

The President stated that the letter was self-explanatory. He concurred in the recommendation of Dean Welch.

Upon motion duly made, seconded and carried, the per diem for travel in the State for Agricultural Extension workers, paid from Federal funds, was increased from \$6.50 to \$7.50 per day, except when it is necessary for personnel to remain in Louisville more than two days, in which case the per diem allowance is \$9.00 per day. The per diem for out-of-state travel was authorized increased for Agricultural Extension workers traveling on Federal funds from \$7.50 to \$9.00 per day, these adjustments effective June 1, 1956.

#### E. Obsolete Library Books Discarded.

President Donovan stated that the University Library was continually acquiring books and was culling or discarding obsolete reading material. He stated that many times books become worn out or are superseded by other editions. He reported that the Director of Libraries had requested permission to discard the following books:

000 - Bibliography and General Works	20
100 - Philosophy and Psychology ----	0
200 - Religion -----	2
300 - Social Science -----	16
400 - Languages -----	4
500 - Pure Science -----	9
600 - Applied Science -----	22
700 - Arts and Recreation -----	1
800 - Literature -----	12
900 - History and Travel -----	10
Others (fiction, biography and periodicals) -----	7

President Donovan recommended that the books be disposed of by sale, gift or otherwise.

Upon motion duly made, seconded and carried, the members concurred in the recommendation of the President.

#### F. Holmes Hall Loan Agreement.

The Vice President of Business Administration submitted Loan Agreement on Project No. Ky. 15-CH-12(D), Contract No. H-302-32, dated as of June 1, 1956 by and between the Board of Trustees of the University of Kentucky and the U. S. Housing and Home Finance Administrator for loan of \$1,131,000 for the purpose of financing the construction of a residence hall for women on the campus of the University of Kentucky. The agreement was considered and members of the Board of Trustees being duly advised upon motion of member Dr. Ralph J. Angelucci, seconded by member J. Stephen Watkins, unanimously approved the loan agreement and authorized same executed for and on behalf of the Board of Trustees and the University of Kentucky by H. L. Donovan, President of the University of Kentucky, and attested to by Frank D. Peterson, Secretary of the Board of Trustees.

#### G. Regulation Governing Single Students Living in Apartments

President Donovan stated he had a communication from the Dean of Men reporting a situation concerning living quarters of unmarried students. He read the following communication:

May 15, 1956

President H. L. Donovan  
University of Kentucky

Dear President Donovan:

During the past two years, Dean Sarah B. Holmes and I have become critically concerned about the problem of unmarried students living in apartments in the city. Each year I have had more than twenty serious complaints from residents of areas adjacent to apartment dwellings in which students resided and from landlords who rented apartments to students. The nature of specific complaints is as follows:

1. Students have been violating the Board of Trustees regulation governing having women guests in their living quarters without University approval and University chaperons.
2. Students have been violating the regulation governing the possession and consumption of alcoholic beverages in their rooms. Much of this has been done, of course, when women guests have been present, creating a very unwholesome situation which has brought many complaints from neighbors. Several times I have gone out to apartments of students very late in the night and have found these complaints valid. It has been necessary that I discipline sixteen students during this year for such actions.
3. Several landlords have threatened to sue students for damage done to apartments and for destruction of furniture and equipment. Although the University has no responsibility to protect the landlord's rights, since he enters into a contract with the student on his own initiative, there is considerable threat to the University's reputation and public relations when such unpleasant conflicts occur.
4. Students have left apartments owing rent. Oftentimes, this matter has been complicated by the fact that students have tendered a worthless check in payment of the rent.
5. Related to the matter of parties and other affairs in student rented apartments has been the external factor of excessive disturbances in the streets outside the buildings, created by students' cars coming and going on such visits. Furthermore, landlords have complained bitterly about students and their friends blocking all the available parking spaces and driveways. These disturbances usually happen late in the evening and have been among the principal reasons why I have had to go out many nights to take care of these problems.

Aside from the considerations of the problems raised above, there are two other serious factors which need to be brought to your attention in regard to this matter.

1. Unmarried students living in apartments have been preparing their own meals which, because of their lack of training and inadequate knowledge of food purchasing and dietetics, has created a health factor for such students. It is a stated responsibility of the University to provide adequate facilities for student housing and dining, and where this is not possible, the University has worked to prevent such hazards to student health and welfare.
2. When students live in apartments, landlords have treated them as family units and have not provided cleaning and maintenance facilities, leaving the students to do their own housework. Obviously most students have had very little training, experience, or incentive to maintain desired conditions of cleanliness. It is my conviction that this is one of the most serious hazards to student health that has existed.

In light of the several considerations presented above, Dean Holmes and I are in accord in recommending to you that the University give immediate consideration to the formulation of a regulation governing the rental and occupancy of apartments by unmarried students and married students not living with their spouses. We respectfully request your consideration of the following proposal:

"Effective September 1, 1956 and thereafter, unmarried students and married students not living with their spouses shall not enter into a lease, rental agreement, or any other arrangement for the possession of an apartment and shall not occupy an apartment unless it is the legal residence of their parents or guardian. Furthermore, students living in rooming houses shall not have arrangements or facilities for the preparation of their own meals, and no student shall reside in any accommodation in which adequate janitorial service is not provided by the landlord. Exceptions to this regulation may be made only by the Dean of Women or the Dean of Men.

"In order to fulfill the provisions of this regulation, the Dean of Women and the Dean of Men are authorized and instructed to contact all landlords and other real estate agents to inform them of this regulation and to invite their cooperation in the carrying out of its provisions. The Dean of Women and the Dean of Men, under the prerogatives already established by University policy, shall intensify their inspection and supervision of student rooming establishments. When students are found to be in violation of this regulation, the Dean of Women and the Dean of Men shall invoke appropriate disciplinary action as prescribed by the University faculty for student misconduct."

I am sorry that this is such a lengthy statement, but I felt disposed to bring the entire matter to your attention so that there could be no

doubt about the seriousness of the several ramifications. Dean Holmes and I will certainly appreciate your assistance in this matter and, if the Board of Trustees can see fit to take appropriate action, it would do much to relieve the University of many possibilities for continued threat to the welfare of students and to the University's standards and public relations.

Sincerely yours,

(Signed) L. L. Martin  
Dean of Men

Board members serving on the Executive Committee stated that this problem had been submitted by the President at the meeting of the Executive Committee on May 18. It was taken under advisement. Some of the members spoke on behalf of the regulation and, after a general discussion, upon motion duly made, seconded and carried, the following regulation was approved:

"Effective September 1, 1956 and thereafter, unmarried students and married students not living with their spouses shall not enter into a lease, rental agreement, or any other arrangement for the possession of an apartment and shall not occupy an apartment unless it is the legal residence of their parents or guardian. Furthermore, students living in rooming houses shall not have arrangements or facilities for the preparation of their own meals, and no student shall reside in any accommodation in which adequate janitorial service is not provided by the landlord. Exceptions to this regulation may be made only by the Dean of Women or the Dean of Men.

"In order to fulfill the provisions of this regulation, the Dean of Women and the Dean of Men are authorized and instructed to contact all landlords and other real estate agents to inform them of this regulation and to invite their cooperation in the carrying out of its provisions. The Dean of Women and the Dean of Men, under the prerogatives already established by University policy, shall intensify their inspection and supervision of student rooming establishments. When students are found to be in violation of this regulation, the Dean of Women and the Dean of Men shall invoke appropriate disciplinary action as prescribed by the University faculty for student misconduct."

#### H. George Land, Jr., to Do Off-Campus Work.

President Donovan submitted a request of George Land, Jr., Instructor in Applied Mechanics, to serve as consultant and organizer of a research program on water conservation and control, of vital interest to Kentucky. He stated that the request had the approval of R. D. Hawkins, head of the Department of General Engineering, and Dean D. V. Terrell.

Upon motion duly made, seconded and carried, Professor George Land, Jr., was granted permission to do work of a special nature for the State Department of Conservation, as outlined in his communication of May 17, 1956.

### I. Debating Team Activities Reported.

President Donovan stated that the University of Kentucky debating team had been so successful in recent years that he felt that the Board of Trustees would like to be advised of the activities of this phase of school work. He read the following letter:

26 April 1956

H. L. Donovan, President  
University of Kentucky

My dear President Donovan:

In accordance with your recent request, I am submitting a brief resume of the University's debate activities for the past three years.

An analysis of our program for this period reveals some impressive facts. We have debated one hundred and twenty different colleges and universities from thirty five states. We have competed against more than three hundred and fifty institutions from forty states. The total number of debates exceeds one thousand, with over two thousand individual performances. In all of these debates more than sixty five percent of the decisions were awarded to the University of Kentucky, which easily places us within the top ten in the nation.

Some of the schools we have met are: Harvard, Princeton, Columbia, Fordham, Chicago, Rutgers, Rhode Island, Pittsburg, Boston U, Dartmouth, Denver, Montana, Notre Dame, Vermont, New York U, most of the members of the Big Ten, and all of the leading schools in the South. We have been in good company. Our competition has been the best.

In addition to debate, our students have taken part in such other intercollegiate speech events as discussion, public speaking, after dinner speaking, and student congresses. Considerable success has also been achieved in these activities.

It is difficult to appraise our intercollegiate speech program. It means so many different things to different people. My own feeling is that it is the principal avenue of student intellectual association our university maintains with the nation's leading academic institutions. Equally important is the fact that, through the manner in which our students have conducted themselves, the University of Kentucky has gained a new and highly respected position in America's higher learning.

The University of Kentucky should be proud of its young representatives even as I, who have worked so closely with them, am gratified. May we be able to continue, and even expand, our intercollegiate debate program.

Cordially yours,

(Signed) Gifford Blyton

Members of the Board expressed their pleasure in receiving this information. Upon motion duly made, seconded and carried, Dr. Gifford Blyton and members of the University's debating teams were congratulated and commended for the fine record they have achieved, and the Secretary was directed to communicate with Doctor Blyton expressing the Board's gratification for the success of the teams during the past year and to extend to the members best wishes of the members of the Board of Trustees and administration of the University.

J. Doctoral Program for Animal Industry.

President Donovan stated that the Graduate Faculty had recommended that the Animal Industry Group be authorized to conduct a doctoral program beginning in September 1956. The recommendation has been approved by the University Faculty. President Donovan reported that, in his opinion, the Animal Industry Group has met all requirements and is fully qualified to offer the doctoral program. He recommended that the Board of Trustees approve the request.

Upon motion duly made, seconded and carried, the recommendation of the Graduate Faculty, approved by the University Faculty, was ratified, and the Animal Industry Group was authorized to conduct a doctoral program beginning in September, 1956.

K. Contract with Concert Association and Public Forum.

President Donovan presented Agreement between the University of Kentucky, the Central Kentucky Concert Association, and the Lexington Public Forum. He explained that this was a continuation of an existing arrangement whereby the groups combine their efforts to bring to Central Kentucky concerts and lectures of a cultural nature. The Agreement provides that the students of the University of Kentucky shall be admitted to all programs held under the auspices of the Association and Forum. Season tickets will be sold to the public to finance the programs. He stated that he thought this was a good arrangement for the University as well as the community, and recommended its approval.

Upon motion duly made, seconded and carried, the Agreement was authorized executed by the President on behalf of the University.

L. Progress Report on Medical School.

President Donovan reported that the consultants and the architects had conferred with Doctor Lippard, dean of the College of Medicine at Yale University, acting as special consultant, and with University personnel, concerning a preliminary program for the Medical Center at the University. He submitted a block-out perspective of the Center and schematic drawings of the medical school, hospital, dental school, power plant and out-patient center. He stated that it was the plan of the consultants to complete definitive drawings by the first of October.

Upon motion duly made, seconded and carried, the report was received and ordered made of record.

M. Medical Center Established.

President Donovan read the following statement to the Board:

Establishing Medical Center

After more than thirty years of discussion relative to whether or not the University of Kentucky should operate a College of Medicine, the Board of Trustees on June 1, 1954, formally established a College of Medicine in response to the demand of the people of the state. There were no funds available at that time with which to implement such a college but by their action the Trustees let the public know that the University was ready to enter into this field of professional education if and when the state provided funds for a College of Medicine.

Governor Chandler let it be known during his campaign for the Governorship of Kentucky that if he were elected he would recommend to the General Assembly that funds be appropriated for this project. In his first message to the General Assembly, the Governor stated that he would recommend a budget for the creation of a Medical School at the University. During this period of discussion and debate the concept of a Medical Center rather than a School of Medicine evolved and plans were made for the establishment of a Medical Center at the University which would include not only Medicine but Dentistry, Nursing and Hospital Service.

Architects have already been employed for the building of a Medical Center and their plans now include Medicine, Dentistry, Nursing and a Teaching Hospital. With the funds already appropriated and those contemplated at the next session of the General Assembly, and with the aid from the Federal Government which we confidently expect will be available, a Medical Center can be erected.

I am recommending that the Board of Trustees go on record today formally approving the creation of a Medical Center providing for a College of Medicine, a College of Dentistry, a School of

Nursing, and a Teaching Hospital for the use and benefit of these colleges. The Board under Kentucky Revised Statutes 164. 120 and 164. 210 has this authority.

I am also recommending that the Board establish the position of Vice President of the University in charge of the Medical Center, and that the position of Dean of the College of Medicine, Dean of the College of Dentistry, Director of the School of Nursing, and Hospital Administrator be authorized. It is understood that the Dean of the College of Medicine, the Dean of the College of Dentistry, the Director of the School of Nursing, and the Hospital Administrator will report directly to the Vice President for the Medical Center, and through him to the President of the University.

This kind of organization will also facilitate the eventual coordination of other activities of the University related to the general field of health, should it be found desirable in the future to tie them more closely together.

With the view of formalizing this plan or organization, I am recommending that the Board adopt the following resolution at this time. More detailed provisions for the administration of the Medical Center will be recommended as the Medical Center develops, if necessary.

Resolved, that there is established within the University of Kentucky a Medical Center, which shall include the College of Medicine, a College of Dentistry, a School of Nursing, and a University Teaching Hospital, and necessary facilities appurtenant thereto. The Medical Center shall be under the supervision and direction of the Vice President (Medical Center) of the University. The Dean of the College of Medicine, the Dean of the College of Dentistry, the Director of the School of Nursing, and the Hospital Administrator shall report to the Vice President (Medical Center). The Vice President (Medical Center) shall report to the Vice President (Business Administration) on all matters pertaining to requisitions, purchases, finance, and property inventories of and for the Medical Center and its several units. On all other matters the Vice President (Medical Center) shall report directly to the President of the University.

During the period of construction and development of necessary facilities for the Medical Center, it shall be the primary duty of the Vice President (Medical Center) to serve as Chief Professional Consultant to the University and to the architects on all matters relating to such construction and development.

Members of the Board expressed interest in the recommendation of the President and, after a general discussion, upon motion duly made, seconded and carried, the following resolution was adopted:

Resolved, that there is established within the University of Kentucky a Medical Center, which shall include the College of Medicine, a College of Dentistry, a School of Nursing, and a University Teaching Hospital, and necessary facilities appurtenant thereto. The Medical Center shall be under the supervision and direction of the Vice President (Medical Center) of the University. The Dean of the College of Medicine, the Dean of the College of Dentistry, the Director of the School of Nursing, and the Hospital Administrator shall report to the Vice President (Medical Center). The Vice President (Medical Center) shall report to the Vice President (Business Administration) on all matters pertaining to requisitions, purchases, finance, and property inventories of and for the Medical Center and its several units. On all other matters the Vice President (Medical Center) shall report directly to the President of the University.

During the period of construction and development of necessary facilities for the Medical Center, it shall be the primary duty of the Vice President (Medical Center) to serve as Chief Professional Consultant to the University and to the architects on all matters relating to such construction and development.

#### N. Highway Contract Extended.

Vice President Peterson submitted supplemental contract between the University and the Kentucky Highway Department which provides for the extension of a contract previously approved by the Board, dated the 27th day of January, 1954. The supplemental contract provides for an extension of time and an increase of appropriation of \$14,000. The supplemental contract will terminate August 31, 1956.

Members of the Board being duly advised, upon motion duly made, seconded and carried, the supplemental contract was authorized executed on behalf of the University.

#### O. Gifts.

From: Mrs. Grant C. Knight--Phonograph Records.

President Donovan reported that the Department of Music had been offered, by Mrs. Grant C. Knight, eight volumes of phonograph records. He explained that these records had belonged to the late Professor Knight, and would be of great value to the University. He recommended that they be accepted.

Upon motion duly made, seconded and carried, the gift of eight volumes of phonograph records was ordered accepted, and the President was requested to thank Mrs. Knight for her kindness.

From: Various Kentucky Lawyers --  
\$1,209.50.

President Donovan read a letter from Dean Elvis J. Stahr, jr., Dean of the College of Law, reporting receipt of additional contributions to the Kentucky Law Scholarships administered by the Kentucky Research Foundation, in the amount of \$1,209.50. The communication explained that these contributions were from 127 Kentucky lawyers. He recommended that the gifts be accepted.

Upon motion duly made, seconded and carried, the Board concurred in the recommendation of the President.

P. Distinguished Professors.

President Donovan read the following statement:

Distinguished Professors

At a meeting of the Board of Trustees on February 14, 1948, the Trustees approved the creation of the position of Distinguished Professor. At that time I made the following statement to the Board

"Some well-known American universities have established the title known as Distinguished Professor. This device has been used to reward a small group of persons who have distinguished themselves as scholars and teachers. The number of professors ever to be promoted to this highly select group is relatively small. To attain this rank, one must demonstrate beyond any shadow of doubt by his teaching, writing, and research that he is an individual possessing creative ability and scholarship. . . . The total number of distinguished professors in an institution the size of the University of Kentucky should probably never exceed twelve, or fifteen at the most. I am recommending at this time that the Board of Trustees establish the rank of Distinguished Professor and that the number authorized at present be ten.

"A careful study of the records of many of our professors has been made. After consultation with the vice-president of the University, the deans of the several colleges, the heads of certain departments, and other persons, regarding those individuals best qualified to receive this recognition at the present time, we have decided to make the following nominations for your consideration."

Some of those persons on the faculty of the University who have brought greatest distinction to the University and to themselves have been designated Distinguished Professors. This is a recognition which I believe has stimulated many of our teachers and research workers to make a greater professional effort. Very great care has been taken in making the selection of those who were to be thus honored.

At present the following people who are on active duty hold the rank of Distinguished Professor: Dr. Thomas D. Clark, Dr. James W. Martin, Dr. Herbert Sorenson, Dr. William D. Val-leau, Dr. Amry Vandenbosch, Dr. Irwin T. Sanders and Dr. How-are W. Beers.

There are three vacancies in this category and I wish to nom-inate the following persons to fill these vacancies.

Dr. Statie Erikson

Professor of Home Economics, who has held the position of Di-rector of the School of Home Economics, but now requests that she be relieved of her administrative work that she may devote all of her time to teaching and research.

#### Q. Honorary Degrees.

The Board of Trustees, at its meeting on April 3, 1956, approved two men for honorary degrees, the Graduate and University Faculties recommending. The names were withheld and ordered placed in these minutes in order to prevent the announcement of the individuals being made before the Commencement exercises. Those who were honored are as follows:

#### ARTHUR KROCK

Arthur Krock, distinguished newspaperman, spent his early life in Glasgow, Kentucky. He graduated from Lewis Institute and received a graduate degree from Princeton University.

His journalistic career began as a reporter in Louisville from which he advanced to Washington correspondent, editorial manager and editor-in-chief of the Times. He joined the New York Times Board of Editors in 1927 and since 1932 he has been its Washington Correspondent. In both 1935 and 1938 he was awarded the Pulitzer Prize for Washington Correspondents.

Mr. Krock contributed numerous syndicated articles from the Paris Peace Conference at the close of World War I, was decorated with the Legion d'Honneur and received the Knight's Cross in the Order of St. Olav.

For his outstanding achievements in his chosen field characterized especially by his penetrating discernment in the area of international affairs, the University of Kentucky is pleased to confer upon Arthur Krock the degree of Doctor of Letters.

## COLONEL HEBER HOLBROOK RICE

Colonel Heber Holbrook Rice, born in 1882, is a distinguished military officer and lawyer, who has served in various U. S. Government Departments under five Presidents and five Attorneys-General.

The son of Judge and Mrs. Harvey B. Rice of Paintsville, Kentucky, Heber Rice was graduated cum laude from the University of Kentucky in 1904 and from Harvard Law School in 1907.

As a military officer, Colonel Rice has served in both World Wars: as a battalion commander in World War I and as Staff Judge Advocate in World War II.

As lawyer for forty-nine years, Colonel Rice has practiced extensively in West Virginia, Tennessee, and the District of Columbia. Among his special legal assignments are these: he was Special Assistant to the Attorney General of the United States from 1921-1934; he was Attorney and Head Attorney for the Home Owners Loan Corporation from 1934-1940, in this capacity assisting thousands of home owners in all forty-eight states; he was Staff Judge Advocate from 1940-1943; he was Attorney Adviser for the U. S. General Accounting Office from 1944-1952; he was National President of the Federal Bar Association in 1940-1941, received its Meritorious Service Award in 1952, and served as its Executive Director in 1952-1953; he was Secretary-General of the United Nations League of Lawyers in 1946 and is now its Honorary President; he is still in private practice in Washington and is currently having success in Federal Court litigation.

Colonel Rice has written many legal articles and one book.

For over fifty years Colonel Rice has been active in University of Kentucky Alumni affairs, has kept up with his own class of 1904 and was president of that class at its fiftieth reunion two years ago. He has always been a leading member of the University of Kentucky Alumni chapter in Washington, D. C.

For his distinguished service, the University of Kentucky is pleased to confer upon Heber Holbrook Rice the degree of Doctor of Laws.

### R. Degrees Granted

The Executive Committee, at its meeting May 18, 1956, approved and authorized degrees granted to the candidates as recommended by the University Faculty at its meeting on May 24. The names of the graduates would have normally been put in the minutes of the May 18 meeting but, since the minutes had to be released in time for them to be read by members of the Board prior to their meeting on May 28, the list of candidates was omitted.

President Donovan submitted list of candidates approved by the University Faculty and recommended that the degree to which each is entitled be granted.

Upon motion duly made, seconded and carried, the list of candidates for degrees at the Commencement on May 28, 1956 was approved, the action of the Executive Committee ratified, and the action of President Donovan in conferring upon each the degree entitled was approved.

U. Board Recessed to Meet June 22.

President Donovan reported that the administration was unable to prepare the annual operating budget in time to present to the Board at the present meeting. He advised that it was important that the budget be approved some time during the month of June. The Chairman and members of the Board discussed a suitable date.

The chairman of the screening committee was asked to make a report of progress. Mr. Hobson stated that there was a possibility that the screening committee might be ready to report a list of candidates for the consideration of the Board of Trustees for the presidency of the University by the latter part of June.

President Donovan further reported that he was in hopes of being able to make a recommendation for dean of the medical school before the end of June.

Members consulted their calendars and, by unanimous consent, and upon motion duly made, seconded and carried, the meeting of the Board of Trustees was recessed to June 22, at 10:00 a. m. , in the Office of the President on the campus of the University of Kentucky, Lexington, Ky.

Frank D. Peterson, Secretary  
Board of Trustees and Executive
