

New UK President May Be Named Today

By PAUL DANIEL

A new president of the University of Kentucky may be named at a meeting of the Board of Trustees today.

Four men will be presented to the Board by a faculty-trustee committee as candidates for the presidency of the University, Frank D. Peterson, vice president of business administration, has announced.

Peterson, secretary of the committee, said the committee has completed examining and evaluat-

ing the qualifications of 56 men and will report its findings Friday. He indicated that the list includes prominent educators both on and off the campus.

Peterson, secretary of the committee, has refused to comment on a story published recently in a Louisville newspaper naming Dr. Frank G. Dickey, dean of the College of Education; Dr. Frank J. Welch, dean of the College of Agriculture; Dr. Elvis Stahr Jr., UK provost and dean of the College of Law; and Dr. Louis Pardue, vice president of Virginia Polytechnic

Institute and former dean of the UK Graduate School. Peterson said the story was based on "speculation."

The names of the four candidates were not disclosed but they may be made public after the meeting of the Board.

No statement has been made as to whether or not the Board of Trustees will name the new UK president at the meeting.

The meeting is scheduled to study the UK budget which was not ready for action at the last board meeting at commencement

time. Dr. H. L. Donovan, UK president, has said that he has no knowledge of whether the Board might consider the new president at today's meeting. He explained that he had kept clear of any of the deliberations concerning his successor and has had no communication with the committee.

Dr. Donovan requested a change of work effective Sept. 1 after his 69th birthday, March 17. The request was granted by the Board at the April meeting and the screening committee was appointed.

The members of the committee were:

Robert P. Hobson, Louisville, chairman; Harper Gattton, Madisonville; Dr. Ralph Angelucci, Lexington; Prof. John Kuiper, head of the Philosophy Department; Dr. H. B. Price, professor of Agricultural Economics, and Prof. R. E. Shaver, head of the Department of Civil Engineering.

The Board of Trustees, or the Board's executive committee will meet again in July. Gov. A. B. Chandler can call a special meeting of the Board if necessary.

Enrollment Increased 15 Per Cent

Dr. Robert L. Mills reported the enrollment for the Summer session at 2,957, an increase of 15 per cent over last Summer's figure. One day remained for registration when the figures were tabulated.

At the same point in the 1955 summer session, 2,567 had signed for classes. Of this Summer's total of 2,957, approximately 100 are taking work at the Northern Center at Covington. No classes are being conducted at the College of Pharmacy in Louisville this Summer.

Dr. Mills said registration will total over 3,000 by the end of the Summer term. He explained that students will be able to enroll for work in special workshops, short courses, and seminars throughout the Summer session.

Mills said that the Foundation Program was designed to provide better opportunities for Kentucky children. The Foundation encourages teachers to come to school by providing pay increases based on the teacher's education.

A teacher with nine credit hours toward a Master's degree would have a higher income than one who had taken only the minimum number of hours needed for a teacher's certificate.

Shawnee Plans Due

Final plans and specifications for four apartment buildings in Shawneetown were to be delivered to University officials today, Frank D. Peterson, UK vice-president for business administration, announced.

Construction of the four buildings is expected to get under way September 1. The 164 one, two, and three-bedroom apartments are expected to be ready for occupancy by September, 1957, Peterson said. They will be rented to married students and to lower-salaried faculty members, he added.

Peterson explained that the plans and specifications will be sent to the State Properties and Building Commission at Frankfort and bids are to be taken within the next two months.

The apartment buildings will be financed through a Federal loan of \$1,806,000 which has been ap-

An open house will be held Sunday, June 24 in building E, Cooperstown, Frank D. Peterson, vice-president for business administration, has announced.

Building E is located on Woodland and Clifton avenues.

proved by the Community Facilities Administration, according to Congressman John C. Watts.

The Cooperstown project is also nearing completion, the UK vice-president said. He said that three of the seven apartment buildings have been finished and students will be moved into them July 1. The other four will be ready by September. The Cooperstown projects will afford 330 dwelling units.

Peterson said that all the Cooperstown apartments have been rented, and there is a backlog of applicants ready to sign up for the new Shawneetown apartments.

UK Official Attends Conference

Dr. Leo M. Chamberlain, UK vice-president, was in Washington yesterday to attend a meeting of the President's Committee on Education Beyond High School.

Dr. Chamberlain attended the meeting as the representative of the Southern Association of Colleges and Secondary Schools.

Following the Washington meeting, he will attend the summer meeting of the Southern Association of Colleges and Secondary Schools in Asheville, N. C. The meeting will begin Saturday, June 23 and end Tuesday, June 26.

The UK vice-president is chairman of the Association's Commission on Colleges and Universities.

Study Grant Approved For Zoology

Dr. J. M. Carpenter, head of the Department of Zoology, announced that the department has received a grant from the National Science Foundation to study "Seasonal Fluctuations in the Frequency of Dorsophila Species."

The Dorsophila species is a type of fruit fly commonly found near over-ripe fruit such as bananas, peaches, and cantaloupe, Dr. Carpenter said. He said the common

Group To Hear UK Professors

Prof. John E. Reeves and Dr. Gladys Kammerer will take part in a round-table program on "Who Chooses Delegates To The National Conventions?" Sunday, June 24. The discussion will be sponsored by the Social Action Committee of the Lexington Unitarian Fellowship and Temple Adath Israel.

Others who will be on the program are attorney Scott Reed and Ernest Mercer. Mr. Mercer is the chief accountant of the Lexington Telephone Co. Prof. Reeves is chairman of the Fellowship. Mr. Mercer is the treasurer.

The group will consider who is chosen in all states, and by what method. They will pay particular attention to Kentucky politics.

The first step in a nomination starts with county meetings, which are open to all members of the party. At this meeting delegates to state and congressional districts are chosen; these, in turn, elect a national candidate.

ICA Offers Contract To University

A tentative contract to render technical advice and assistance to the University of Indonesia has been offered UK by the International Cooperative Administration in Washington, Dr. Elvis J. Stahr, University provost, said.

The Board of Trustees has approved the idea in principle, but the details of the contract cannot be released until it has been negotiated and approved by the University.

If accepted, the contract would be put into operation this September.

The program involves sending experts in engineering and the physical sciences to Indonesia to help improve their teaching methods. Professors and graduate students also would come to UK from Indonesia for further training here.

UK Prof To Report On Mission

Dr. Amry Vandebosch, head of the Department of Political Science, has just returned from a mission in Asia, conducted under the auspices of the Brookhaven Institute.

This group is interested in promoting the use of atomic energy for peaceful purposes.

Dr. Vandebosch is to leave Monday for New York, where he will join in writing a report and recommendation. That report will go to the International Cooperation Administration, the Department of State, and the Atomic Energy Commission.

Dr. Vandebosch said when the group meets he expects it to advise the immediate construction of a nuclear center, in the Philippines.

At the present time, the group proposes location of the center next to the University of the Philippines. Estimated cost of the plant would be 20 to 30 million dollars. All the money is to come from President Eisenhower's Asian Development Fund.

The plant would be comparable to Oak Ridge, or Brookhaven, according to Dr. Vandebosch.

John Hollister, head of the International Cooperation Administration, proposed the center, which was offered by the U.S. government, at the 1955 meeting of the Colombo Plan countries in Singapore.

The Colombo Plan countries are a group composed of the United States, the United Kingdom, Australia, and New Zealand. They are banded together for the purpose of

(Continued on Page 2)

UK Business Institute Set For July 23

Plans have been completed and registrations are being taken for the University's fourth annual College Business Management Institute which will be held from July 23 to August 4, Frank D. Peterson, UK vice-president for business administration, announced.

Believed to be unique in this country, the Institute offers a study course for college and university business managers and business office personnel. Last Summer 72 persons from 22 states enrolled for the course and about the same number are expected this year.

Dr. H. L. Donovan, UK president, said he hopes the University will "become a center of training" for personnel directors, counselors, registrars and for other jobs connected with careers in the college administrative fields.

Two years ago the University administration, University Faculty and the College of Education approved a program granting the graduate degree in higher education with a major in College business administration. At that time two \$1,200 graduate scholarships were established to assist persons taking the full-time work. A third \$1,200 scholarship will be added in 1956-57.

The teaching staff for this year's College Business Management Institute will include Dr. Lloyd Morrey, president emeritus and former controller of the University of Illinois; George F. Baughman, business manager, New York University; W. Ellis Jones, business manager, University of Florida; President Kelly Thompson, Western Kentucky State College; Sam F. Brewster, director, Department

(Continued on Page 4)

Air Lab Gets New Grant

Another major contract has been awarded to the Aeronautical Research Laboratory by the U.S. Air Force.

A \$17,829 grant will enable engineers at the laboratory to design and manufacture cargo parachute ground release devices for the Air Force. The grant was made by the Air Material Command, Wright-Patterson Air Force Base, Dayton, Ohio for a period of one year.

The announcement was made by Dr. Karl O. Lange, associate director of the Engineering Experiment Station, and Dr. Merl Baker, director of the Kentucky Research Foundation.

The grant will be administered by the Research Foundation through the Department of Mechanical Engineering.

The UK engineers will work on devices which will release the parachute from the cargo upon contact with the ground. Automatic release prevents damage to the cargo which might result from dragging by a partially deflated parachute.

The new contract calls for the "design and construction of both mechanical and pyrotechnic devices," Dr. Lange reported. He said that a fuse-burning mechanism would control a "pyrotechnic" device.

Swing Your Partners!

A group of UK students are dancing one of the lively folk dances held weekly behind the Women's Gym. The dances are held at 7:30 p.m. each Thursday.

UK Prof

(Continued from Page 1)
mutual assistance in improving the living standards of Asia.

The U.S. government requested Brookhaven to furnish a team of specialists from various phases of American science to visit the Colombo Plan countries. They were to consult with the governments, scientists and universities concerning the establishment and operation of the nuclear center.

Dr. Vandebosch attended the tour as a specialist in government and political affairs in Asia, and in international organization.

The United States government will elaborate its proposal to set up the nuclear research center at a meeting of the Colombo Plan countries. This is scheduled to take place in late October or early November of this year.

If the proposal is accepted by all countries, construction will begin at once. According to Dr. Vandebosch, the building "should be completed in two years."

Penrod Receives Honorary Degree

An honorary science degree has been awarded to Prof. E. B. Penrod, head of the Department of Mechanical Engineering, by Hillsdale College, Mich.

The U.K. professor received the degree at the school's 104th annual commencement.

Prof. Penrod was head of the Hillsdale College Department of Physics for 18 years, from 1924 to 1942.

Pharmacy School To Be Completed By March, 1957

Construction of the new College of Pharmacy Building is progressing on schedule, Frank D. Peterson, business vice-president, said.

Peterson said that the building should be completed by March, 1957 and that it will be ready for use in September of that year.

The structure is being erected on Washington Ave., directly behind the Funkhouser Building. The site was bought last November by the University for \$50,000.

The building will cost \$588,000. The College of Pharmacy will be moved from Louisville as soon as the new building is completed.

Strow Promoted

A U.K. engineering graduate, Lucien C. Strow, has recently been advanced to plant engineer of the Libbey-Owens-Ford Company, Ottawa, Illinois.

A native of Benton, Ky., Mr. Strow has three sons and a daughter.

Carr To Attend Latin Workshop

Dr. W. L. Carr, Department of Ancient Languages, will participate in a workshop for Latin teachers to be held at the University of Wisconsin this summer.

Welch To Go To Guatemala

A contract between the University of Kentucky and the International Cooperation Administration is being negotiated to send two men to Guatemala, Frank D. Peterson, business vice-president, has announced.

Peterson said Dean Frank J. Welch, College of Agriculture, and one other person will make an exploratory trip to the Central American country between now and Sept. 30.

The Department of Agriculture in Guatemala City has requested a survey of the agricultural needs of the country.

It is possible that a contract for a year's service will be worked out between UK, Guatemala and ICA based on the findings of the survey, Peterson said.

About 1800 the stage wagon was used for fast transportation of both passengers and mail.

Law Librarian Gets Promotion

Miss Dorothy Salmon, law librarian, has recently been promoted to the rank of associate professor by the Board of Trustees.

She graduated from the University in 1933 with a degree in commerce and has been here since. She received her law degree in 1938.

A member of the Kentucky bar, Miss Salmon served as secretary of the UK College of Law from 1933 to 1945, when she became an instructor. In 1949, she attained the rank of assistant professor, a position she has held until her recent promotion.

Recommendation for this type of promotion comes from the head of the department under which the person serves. It then goes to the dean of the college, to the president, and finally to the Board of Trustees.

In 1800 the capitol of the United States was moved to the District of Columbia, where the City of Washington was built on the banks of the Potomac River.

Tour Deadline

All persons intending to go on the tour of Bluegrass farms must sign the list at the Information Desk in the Student Union Building, by June 28. This is the only such trip that will be offered this summer.

The first degree ever conferred by the University of Kentucky was a Bachelor of Science to William B. Munson in June, 1869.

COLONEL of the WEEK

The Stirrup Cup is happy to announce Joan Winkler as its Colonel of the Week.

Joan is NOT a journalism major. She is a junior, majoring in Physical Education. Last semester she had a 3.7 standing.

President of the W.A.A., she is a former vice-president and social chairman of that group. She is also Fire Marshal of Keeneland Hall, and a member of the basketball and hockey teams.

The Stirrup Cup congratulates you, Joan, and invites you to enjoy two delicious meals.

Study Grant

(Continued from Page 1)

names given Dorsophila are sour gnat, vinegar fly, and fruit fly. He added the fruit fly is of no harm to humans, although it sometimes damages farm crops. Dr. Carpenter said the insect has been "quite valuable" in the study of heredity.

The fly breeds on yeast growths, and the study will attempt to determine the relationship between the different types of fruit fly and seasonal yeast growths. Dr. Carpenter said the study will be of importance in determining general evolutionary processes.

Studies under the grant, valued at \$7,100, have begun, and they are to continue through June, 1958.

Assisting Dr. Carpenter in the studies this Summer are Joe Montgomery, E. P. Ward, Ralph Willis, and Marvin Burdine. Miss Connie Rogers is the laboratory assistant.

In 1965 Transylvania University united with Kentucky University and lost its separate identity.

Music-Drama Combine To Give Opera

"The Telephone" and "The Medium" by Gian-Carlo Menotti will be given July 25-28 by the combined Opera Workshop of the Music Department and the Guignol Theater of the Drama Department.

Almo Kiviniemi and James King are directing the music, and Mrs. Lolo Robinson is producing the operatic part of the program. Ernest Rhodes is the technical theater director.

"The Telephone," a one-act light opera, and "The Medium," a two-act tragic opera, were first presented in New York in 1937. "The Telephone" lasts 20 minutes and "The Medium" one hour.

UK Band Schedules 2 Concerts

Concerts will be given June 26 and July 10 in the Amphitheater by the University Summer Band, under the direction of Professor J. W. Worrel of the Music Department.

Rehearsals for students interested in participating will be held on Wednesday nights from 7 to 10 p.m. in the air conditioned band room of the Fine Arts Building.

During the week of July 9-13, the band will be host to the annual Summer Band Workshop sponsored by the Music Department.

One of the main purposes of the Summer Band, because of the high school band directors, is to read through new music. However, both new and old music will be played at the concerts.

UK Orchestra Needs Members

The University summer orchestra, directed by Dr. Edwin E. Stein, meets on Tuesday night from 7 to 9 p.m. in the band room of the Fine Arts Building.

Students who wish to play in the orchestra, for which no credit will be given, are asked to come to rehearsals. String players are particularly needed.

The orchestra will present a program later this semester.

Dean To Meet Foreign Students

Dean L. J. Horlacher, College of Agriculture and Home Economics, will go to Washington, D.C. tomorrow to meet and bring to Kentucky a group of foreign students who will attend a special short course at the University.

The 27 men and women extension workers or professors from eight countries will be conducted to Lexington on Saturday, June 30, by Dean Horlacher.

This course, which runs from June 30 to September 28, features field experience in assigned counties; class instruction; and a trip to Athens Georgia for special study.

of Buildings and Grounds, Alabama Polytechnic Institute; Herbert H. Hays, manager, Berea College Store; and John W. Hargrave, food service equipment consultant, Montgomery, Ohio.

Members of the University of Kentucky administrative and instructional staffs will round out the list of teachers for the session.

Such subjects as college business management, purchasing, operation and maintenance of the physical plant, current national problems in education, public relations, budget preparation and control, administrative organization, non-academic personnel administration, and institutional accounting and reporting will be studied in the first and second-year courses. The third-year course will be devoted to case studies and problems encountered by college business management personnel.

Thailander Attends UK

By T. N. BOQUIREN

"American people are friendly," declares Thammanoon Kongsamudra, 23, of Bangkok, capital of Thailand. He is working for his bachelor's degree in business administration and plans to major in this field for his master's degree. "It is quite easy to land a job in Thailand with a knowledge of business," he states when asked why he is majoring in this field. He is auditing classes this Summer, preparatory to his registration in the Fall, to gain more proficiency in the use of English. Kongsamudra first came to the United States four months ago and

KONGSAMUDRA

has visited about fifteen states. He attended the English Language Institute offered to foreign students at the University of Michigan in Ann Arbor last Spring quarter.

UK 'Gets In Swim'

More swimmers have flocked to the pool in the UK Coliseum this semester than in any previous Summer.

Recreational swimming is open to any student, faculty member or staff member, with the purchase of a \$4 swimming ticket.

To obtain tickets, applicants should fill out a blank form at the Infirmary, and deliver it, along with a report of a physical check-up, to the office in the Coliseum.

The office is located on the east wing of the building. It is the first door to the right of the main entrance, and is open from 8 a.m. to 5 p.m., Monday through Friday.

A swimming card entitles one to the use of the pool, a locker, and the showers.

Shannon To Talk

Dr. Jasper B. Shannon, Political Science Department, will speak on "National Nominating Conventions," before the Lexington Exchange Club, on June 26. This organization is similar to the Lion's Club or the Rotary Club.

James Gray has organized and supervises the present swimming program. It includes an advanced swimming and diving course for UK members, five children's classes, a beginner's course for adults and a junior life-saving course.

The 75 x 45 foot pool has a graduated depth from 2 feet at the shallow end to 10 feet. A lifeguard is on duty at all times.

Rupp Predicts Tough Season For Wildcats Next Year

The University's basketball five will face 26 of the nation's hardest teams in what Athletic Director Bernie A. Shively classed as one of the most difficult as well as one of the most attractive lineups ever arranged for the blue-and-white men in the school's 52-year basketball history.

Coach Adolph Rupp, veteran mentor of the Kentucky squad, listed the lineup as "a pretty stiff challenge for a club that will be at its lowest ebb in strength of the past 15 years."

New competitors on the Wildcat schedule, exclusive of regular tournament foes, are Washington and Lee, Miami (Fla.), and Loyola (Chicago). Other top teams Kentucky will meet include Temple, Duke, and Georgia Tech.

UK's home-court opponents are: Washington & Lee, Miami (Fla.), St. Louis, Maryland, Georgia Tech, Loyola (Chicago), Georgia, Florida, Vanderbilt, Alabama, Auburn, and Tennessee.
