

UNIVERSITY  
OF KENTUCKY

1992-94

Copy 1

January 1992

To: Governor Jones and Members of the Kentucky General Assembly

I am pleased to forward this brief summary of the University of Kentucky's 1992-94 Biennial Request to you. This Request is based on the University's Strategic Plan and has been developed within the Council on Higher Education's funding formula. The booklet also contains a profile of the University including facts on enrollment, tuition and fees, degrees conferred, and staffing.

During the current biennium, in which the University received the largest biennial increase in the history of state funding to the University, we were able to address many of our highest priorities: competitive salaries and benefits for University employees; critically needed faculty and support staff positions in the Community College System to meet enrollment demands; equity issues; undergraduate instruction needs; the University's commitment to service and graduate level instruction throughout the Commonwealth; and major programmatic needs. For this, we owe our thanks to you. (For detailed information on how the 1990-92 increase in state appropriation was used by the University, see pp. 10-11). Unfortunately, the recent revenue shortfall and the subsequent budget reduction to the University will negatively impact some of the gains we were able to make.

The challenge before us is to ensure that we maintain the gains made during this biennium, with a particular emphasis on maintaining competitive salaries, and that we continue to build on that progress during the forthcoming biennium.

Funding of the University's request would allow us to maintain that progress—and to address the critical areas of teaching and learning, the continuing enrollment demands of the Community College System, the University's unique role in serving the Commonwealth through economic development and public service initiatives (with special attention to our role in the successful implementation of the Education Reform Act and the Healthcare Reform Act), and the building and retention of an excellent faculty and staff. (See pp. 2-9 for descriptive information on the University's 1992-94 operating and capital request.)

My commitment is to excellence and quality at the University of Kentucky. I believe this request reflects that commitment, and I look forward to working with you to make these plans a reality.

Sincerely,

Charles T. Wethington, Jr.  
President

In addition to the above, the Library's collections include over 200,000 maps; over 3,000 Oral History program interviews; 271 current state, national, and international newspapers; the University Archives; Audio-Visual Archives, the Modern Political Papers; the Bert T. Combs Appalachian Collection, including the Appalachian Regional Commission Archives; and the W. Hugh Peal Collection of 19th century English and related literature. The Library is a regional depository for U.S. government publications and is also a depository for United Nations, European Economic Community and Canadian publications, British Parliamentary Papers, and Kentucky government publications. Numerous CD ROM and online databases are accessible in the main and branch libraries.

Library sites include the Margaret I. King Library, the Medical Center Library, 12 other University System branch libraries, and 15 community college libraries. The NOTIS library system provides an online catalog for the holdings of all University libraries.
