

WALTER REED GENERAL HOSPITAL
ARMY MEDICAL CENTER
WASHINGTON, D. C.

Sunday night

Dear Fred: —

I called up the day your promotion was announced and left word with Miss Faubus to express my great delight and some congratulations - If all other medical officers can come up to the high standard you have set our some will make a fine record in this war.

Am enclosing Adson's letter - which I assume he would like for me to show to you. Please write him a nice consoling note for I am sure that he feels left out of things and I know he would do any job no matter how menial that we would ask of him. With all his "blustering" and "puffing" he is fundamentally a good guy. I shall also write to him. Please return his letter.

Best regards
Lemuel!

Jim.

I have your Nes Cafe and will add to the stock a little at a time.
