

we have got our other room
mate, and it is Bertie Eng-
land of Amherst, she went
here a while last year, but
got sick and went home, she
was just as good and sweet
to me as she could be last
year, she would always take
up for me when other were
mistreating me; and so
when Mr. Stuart told me
that she was to be my room
mate I was very glad to hear
it, as you will hear me speak
of her quite often I will give
you a little of her history;
her father and mother
live in Lebanon, they had
a large family of children
and so at the age of five
Bertie was adopted by her

rich married sister, much
older than herself and who
never had any children of her
own, Bertie is now seventeen
and is just worshipped by both
her sister and brother in law,
Monarch is their name
and he is the "Dairyman Coun-
ty Distillery" and another
known as the "Monarch
Brand" he is a big whiskey man
and very wealthy, Bertie has
very nice gambles and dress-
es beautifully, she went to Belle
wood a long time to school,
and she has traveled all
over the United States with
her sister and brother, and
has been to see so many
fine waterfalls. Her
sister brought her to school
Tuesday evening, and stayed

until Thursday, her sister is a
large masculine looking wo-

nice looking, I fell completely
in love with her and she did
with me too, so she told Bertie,
Bertie told me after her sister
left that she said she was so
glad that I was her room mate
and even so many other nice
things said a girl that was

bought so many nice things
with her to fix up the room,

I am duty in every respect, you
 desired, you can think some may be assured of that, I am
 night of a bright cheerful room ^{could} decorated with pictures, and
 of three happy and contented girls sitting around a table
 in the centre of the room studying their lessons. Bertie
 is just as sweet as she can be, and prefers going with me to any
 one, says I have got to visit her, if she is sick she is not spoiled,
 she brought a trunk full of edibles with her, so we won't be
 hungry very soon. Mamma I have told you all of this to show
 you how nicely fixed I am, Mr. Stuart is not going to put anyone
 else in with us. I would be
 with you all, but as that is im-
 possible at present I am trying
 to make the best of where I am.

I am determined to have the Tale-
 dictiony, I have got a good start
 of the girls in Geometry because
 I have studied it before, the
 harder I study the more I pre-
 tire, I have learned thoroughly

 also finished exercises in vocal
