Mr. Herndon Evans,
Sun Publishing Co.,
Pineville, Kentucky.

Dear Herndon:

We were very much interested to read in the Courier Journal this morning an account of your actions in heading the society for protection of children. This is very commendable, indeed, and should call to the attention of Dreiser and his colleagues the fertile field for publicity projects which they have overlooked right at their door.

I hope you will have Governor Roosevelt's assurance of protection before you and the members of your committee venture into the wilds of New York City.

Let me wish you folks success, for you really are, in our opinion, performing a service for the state of Kentucky in showing this matter up in its true light.

Kindest regards.

Yours very truly,
HARCOURT & CO.
