

Bro. Williams, upon his return from Ashland, standing in front of the Dormitory, in the presence of a number of students, stated that Regent Bowman told him that Bro. Arnold had said, that he, (Arnold) had been told by certain beneficiaries (names not mentioned) that the Beneficiaries were being influenced by certain members (or a member) of the Educational Society, to leave the University.

Also that Regent Bowman had told him to remain in the Bible College and he would certainly receive aid from the society, for he, (or his party,) had an influence in the Ed. Society sufficient to secure it for him.
